ALLOY WHEELS

## YOUR WHEEL, EV AND SOLAR SUPPLIER

YHI New Zealand Ltd is proud to be supplying Blackfern Cooperative.

Our commitment to our customers stems from having served the Automotive industry for the last 24 years. In that time, our distribution network has grown to cover New Zealand from 9 warehouses and we have curated a catalogue of 38 of the world's leading automotive and energy brands.

We have ensured that every corner of the country is serviced by both an Automotive and Energy Account Manager. These specialist staff are available to provide localised support and training on an ongoing basis.

We also offer our customers dynamic marketing support from our inhouse marketing team who can create and print customised materials to assist you at the point of sale.

Visit our websites for a complete range of brands and products:
